

Burning Policy

Meyer Township Policy states that trash may be burned only on Monday evenings after 5 pm. Only paper products may be burned. Absolutely no plastic, rubber or any other potentially hazardous materials should be burned. Many residents have complained of neighbors burning outside of this time period and burning foul smelling trash. This makes it impossible to keep windows open, can cause breathing problems and can spoil clean laundry that has been hung outside to dry in fresh air. Meyer Township asks our residents to follow this policy to avoid neighbor problems and the need for intervention by the Township.
